

3 AUTODESK® 3DS MAX®

AUTODESK® CERTIFIED USER EXAM

Are you an aspiring game, film, or motion-graphic artist? Would you like to increase your Autodesk 3ds Max® 3D modeling software skills and demonstrate your proficiency?

Enhance your career by becoming an Autodesk 3ds Max® Certified User. Whether you're a student or a professional, this software certification will validate your skills, fulfill academic and industry requirements, and enhance your design career.

ACU EXAMS

As Autodesk's exclusive provider for the Certified User program, Certiport makes Autodesk 3ds Max® certification easier with a unique three-step pathway:

- 1. LEARN** (or review) how to use Autodesk 3ds Max® with content-rich textbooks, online courseware, video resources, and more.
- 2. PRACTICE** by using interactive exam-preparation tools and practice exams. Build the confidence you need to take the Autodesk 3ds Max® Certified User Exam.
- 3. CERTIFY** and validate your skills by passing the exam and receiving your official certificate.

We've designed the Autodesk 3ds Max® Certified User program for those who are relatively new to the software and want to prove their basic proficiency. The Autodesk 3ds Max® Certified User Exam includes multiple-choice and performance-based questions. Following are some examples of software aspects covered in the exam:

- Navigating the user interface and managing scenes
- Modeling, including transforming, creating, modifying, and cloning objects
- Rigging
- Working with cameras and lighting

- Handling materials
- Animating and rendering

Before you take the Certified User exam, we recommend that you complete a 3D design course at a secondary institution and get 50 hours of hands-on experience with Autodesk 3ds Max® (a free student version is available).

WHAT'S ON THE EXAM?

Refer to the chart on this page for a list of skills covered by this exam.

AUTODESK CERTIFICATION EXAM TOPICS AND OBJECTIVES

The Autodesk Certified User Exam Contains 30 questions. The majority of these require you to use Autodesk 3D'S Max® software to create or modify a data file, and then type your answer into an input box. Other question types include multiple choice, matching and point and-click. You will have a 75 minute time limit (in some countries, the time limit may be extended). The chart shows you the skills you will be expected to demonstrate on the exam. Keep in mind that some of the skills listed may not be tested on your specific certification exam; however, you should prepare to demonstrate your mastery of them all.
